

Great Location

We are located just off of I-5 in Lacey with plenty of free parking. There is convenient access to coffee houses, restaurants and shopping.

Multiple Room Options

We have six computer labs that range in size from 12 - 24 stations. Two lecture classrooms, one with round tables that holds 24 and one with rectangular tables that can hold up to 75. Our conference room can accommodate up to 10 people.

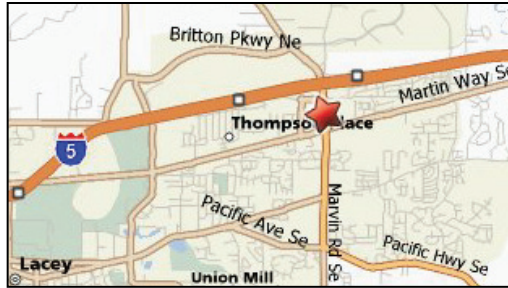

Easy Contracts

For state agencies we offer a great location that qualifies under the current legislation requiring use of state agency sites.

For private businesses and non-profits we have a simple rental contract that has a very quick turn around process.

DIRECTIONS

Take exit 111 going north or south on I-5

From the North you would then take a left at the light onto Marvin Road. Go over the overpass, get in the right hand lane and go about 2 blocks and you will see a strip mall on your right. Take a right into the strip mall at the light just before Jiffy Lube or just past McDonalds. Parking is open to everyone and the entrance is right next to Starbucks.

From the South you would follow the exit and go straight through a roundabout. You will see Ruby Tuesdays on your right and take a right into the strip mall parking lot. There is an entrance on the front of the mall next to Starbucks or an entrance in the back of the mall. Parking is open to everyone on either sides of the mall.

RENTAL FACILITIES

Whether you need a meeting place for just one day or a classroom for an entire week we have rooms that work for various functions.

- Computer Labs
- Classrooms
- Conference Room
- Proctored Test Labs

COMPUTER LABS

Equipment and Amenities

All computer labs have an instructor computer station connected to an LCD projector. White boards, cork strips, and a podium are also standard in each room.

Software

Labs can be configured to meet your needs. The first hour of lab set up is included in your rental fee. For additional set up and testing, we can work with you to make sure the labs meet your requirements. Computer technicians are on site to help with any issues that arise during your rental period.
